Old Age Home for Retired Assistant Principals
Room 66
Rocking Chair, Illinois
Dear Mr. Hentze,

Twenty-one years have passed since you so faithfully and helpfully served us as our class advisor. We thought that you would like to know what we have accomplished since our graduation from Minooka High School. We are now assembled in the midst of our reunion, and we feel this would be an opportune time to tell you just how far we've come.

This year we've met in the relaxing setting of gentlemen farmer Jim Holbrook's estate. As we lounge around Jim's swimming pool in his patio, we see our classmates and their husbands and wives arriving and having fun.

Bill Andrews is here taking a break in his studies at Harvard, where he is still working on his Ph.D. of everything degree. Bill is discussing atmospheric pressure's effect on body metabolism with Dawn Stalker and Diana Littlefair, who are nurses who specialize in the care of monkeys, before and after space flights. Another registered nurse, Jackie McCoy, is treating electrical engineer Jon Murley for shock. A little while ago Jon got quite a jolt from Jim's electric drink mixer.

Taking it easy in three patio chairs are Janet Blair, Barb Costello, and Wayne Pehlke who own and operate the prosperous "Janet Blair, Barb Costello, and Wayne Pehlke Beauty Salon and Barber Shop" located in Pehlkeville.

Pitcher Don Davidson, who has the distinction of never losing a game to the Cardinals, is swapping some old "Mr. Miller" jokes with his old friend and now professional basketball player, Larry Korelc.

Bev Beasley who is the President of the "Zany Wives Club," is conversing with Treasurer Diana Schuman and Secretary Shirley Mitchell.

Comparing money rolls are millionaires Jerry McCowan and Tommie Williamson. Leroy Steffes, a high school math teacher, is judging the contest.

Gene Frederick and David Lyons, owners of the "We Tow Anything on Wheels" Garage, just arrived with an old customer of theirs, Terry Seil, who is famous for promoting and losing the Minooka to Channahon sports car rally every year of its running.

Steve Hadaway, Joyce Hawthorne, and Gordon Hutchinson, owners of the 3H Foundation Garments Company, are discussing current fashions with their two top models, Helen Gillan and Nancy Phillips.

Kathy Fleming, who was voted the "Prettiest Gas Station Attendant of 1984" has just been rescued from the swimming pool by Dave Stafford, who is head counselor and life guard at Wally Kundert's Health Club.

It seems Kathy lost her balance on the edge of the pool while twisting with the famous rock and roll singer Ralph Mundt.

Kitten Thompson and Sharon McCoy have just returned in time for our reunion from their teaching assignments in Bongo Bongo Land, Outer Mongolia.

Nationally known comedian, Greg Connor, is showing his gold record of imitations of famous people to Margaret Satorius who in turn is showing Greg her Pultizer Prize award for her biography of Joan Frederick who has become famous for her abstract paintings.

Daisy Rushing, a dedicated social worker, is talking to the former Sandy Randolph about turning one of her husband's farms into an underprivileged children's camp.

Sue Stafford, Janet Kemp, and Diana Schuman, owners of the 3 Friends Fashion Shop have started a line at the buffet table.

Wayne Greenback, owner of the Rahling Sporting Goods Co., is out on the lawn tossing a football around with Bill Wilhelmi, who is the feature water skier at Cypress Gardens. A wild toss just barely missed DeVonna Knudson who is now appearing at the Metropolitan Opera House in New York. DeVonna told us her flight was a little late arriving and that was why she was late getting here.

Now, as everyone gathers around the buffet table, the talking and laughter blend together to convey a feeling of acomplishment, satisfaction, and a hope of even greater joys and reward.

Sincerely,
The Class of '63

Senior Class History

Just four years ago, fifty-three Freshmen began their high school careers in the halls of M.C.H.S. Our first year was filled with the excitement of having many different teachers and meeting the upper classmen. Our Sophomore year was kept busy by sponsoring school parties. Of all our four years, this was probably the most restful. By this time, we were well acquainted with everyone and some of our classmates had moved on to other schools, but their desks were quickly filled by new students.

Although we had worked hard our first two years, our busiest year was our Junior year. This was the year that we had so many class meetings. These meetings were needed to select class rings, to prepare for the concession stand, to sell cards, to present the Junior play, and last but not least, to pick "Wonderland By Night" as the theme of our prom.

In September of 1962, we embarked on our final year of high school. This year was highlighted by "Hillbilly Weddin," our Senior play. The class enjoyed putting it on as much as the audience enjoyed viewing it. This year the girls did not have to help decorate for the prom, "MYSTIC MOMENTS," while their fingernails dried, and the boys didn't have to race to the florist five minutes before closing time. The Seniors sat back and relaxed while the Juniors presented us with the Banquet and Prom of "63."

Now that these four years have presented themselves, we have all set higher goals. No longer will there be the same 8:30 A.M. to 3:30 P.M. schedule set up for us. Now is the time when we will take advantage of our class motto, "The Longest Journey Begins With A Single Step."

CLASS MOTTO: *"The longest journey begins with a single step."*

Junior Officers and Advisors

The Junior Class officers are from left to right, LoWayne Wells, treasurer; Kristi Hoyland, vice-president; Mr. Charles Agney and Miss Lillian Casten, advisors; Mark Offerman, president, and Stephanie Mann, secretary.

The student council representatives this year were Melode Flatness and Donnie Williamson.

The Juniors were busy making money from the very beginning of the year. Our first project was the selling of Christmas cards in the fall. At the same time, we were busy with our sale of concessions at all the basketball games. To help with our finances, we sponsored an after-the-game dance.

One big event that the Juniors looked forward to was the Junior play, "Lights Out" directed by Miss Lillian Casten and assistant director, Mr. Charles Agney. This was the first time that many of us had an opportunity to show off our acting ability, and many did a tremendous job at it.

The best and final event for the Juniors was the 1963 Junior-Senior Prom and Banquet, which was held May 4, 1963. The theme was "Mystic Moments" and was carried out by the use of a large mirrored dome with a revolving mirrored globe hanging from it. The end of the gym was decorated as a garden scene with a waterfall and stream and a white garden set.

Our Junior year was a lot of fun, and we are sure that all the Juniors will remember it for a long time.

Sophomore Officers and Advisor

The Sophomore Class officers are from left to right: Ron Severson, Secretary-Treasurer; Mr. Donald Morrissey, advisor; Dan Friant, President; Bob Heap, Vice-President.

Preparing for their working Junior year the Sophomores sold refreshments at the Regional Baseball Tournament. The student council representatives this year were Dave Peterson and Phyllis Stafford.

Freshman Officers and Advisor

The Freshman Class officers are from left to right: Sue Beane, Secretary-Treasurer; Craig Mann, President; Mr. Ronald Lehman, Advisor; Juanita Fitzer, Vice-President. The student council representatives this year were Landis Smith and Karen Hancock.

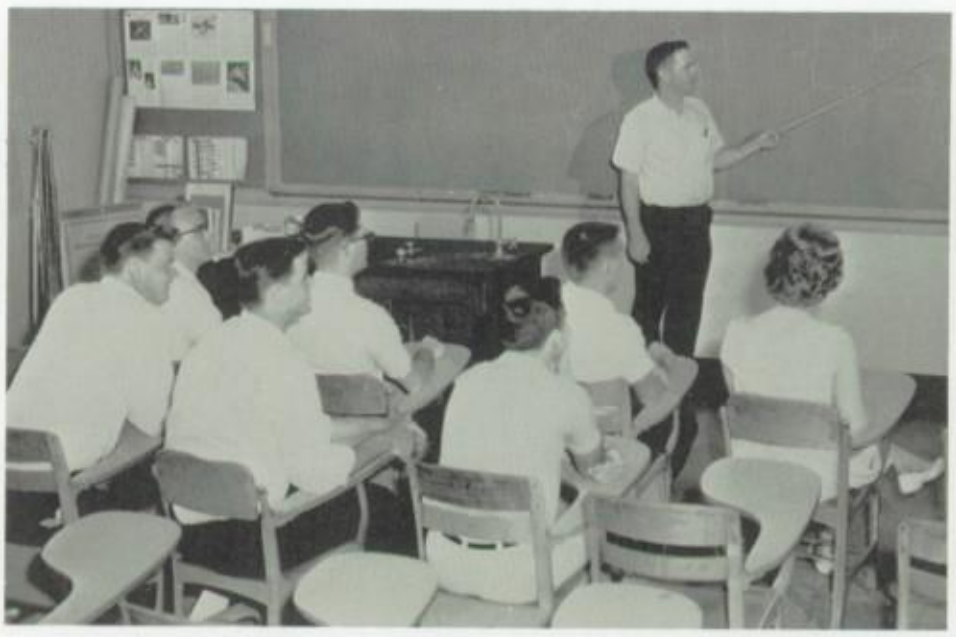
"Modern Living Requires Science and Math"

Jackie McCoy tries to prove one of the many experiments in physics.

Mr. Heck explains the structure of a leaf to his interested class.

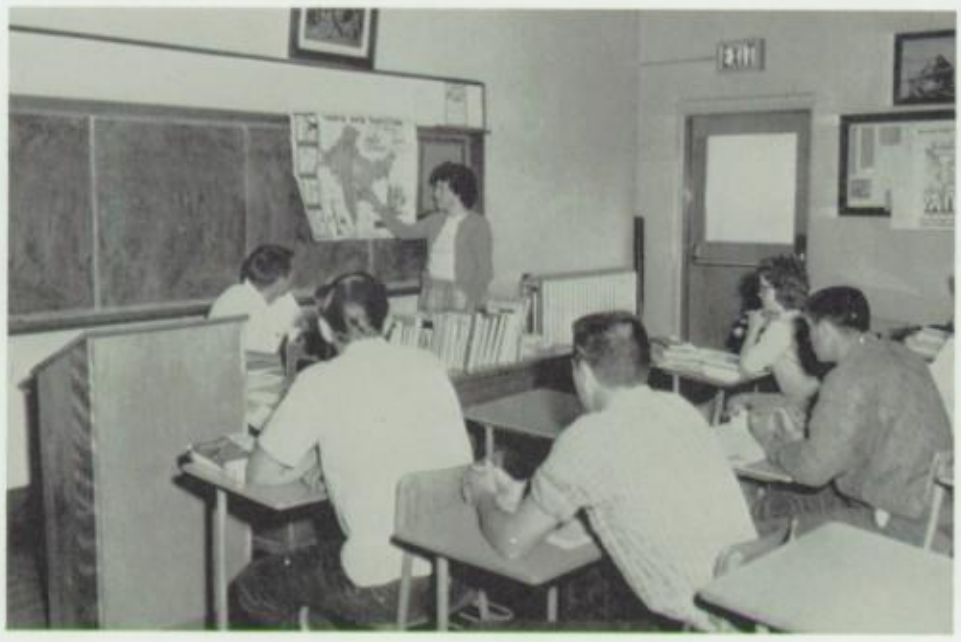
PHYSICS: Potential engineers, nurses, and teachers find physics a difficult but an engrossing subject. Experiment after experiment lets students discover more about the mysterious world in which they live. BIOLOGY: "Rats 'n Plant's; that's what biology is made of." Biology enables students to increase their knowledge of nature and her wonders. TRIG: The advanced math students face more difficult problems to solve. Can you solve this:

$$\frac{2/A \times 4^{2}}{720}$$



The sine Theta equals the side opposite over the hypotenuse?

"Language and History Promote Understanding"



"This is India, a mysterious country," says Sandy R.

Mr. Miller explains the way to figure out problems about the Stock Market.

HISTORY: Students have followed America's governmental process from the original thirteen colonies to the fifty states. Mr. Miller has also taught students a basic understanding of countries such as: India, China, and Africa. ECONOMICS and SOCIOLOGY: The first semester students were enlighted about the major problems facing the United States. Among these problems were: segregation, unemployment, educational systems, and Juvenile Delinquency. During the second semester attention was focused on the Stock Market. GERMAN: "Wie Geht's?" Herrs and Frauleins of Miss Casten's classes learn to read, write, and speak German fluently.

Miss Casten is pointing out a town in Germany to Mary Hess, Judy Clark, and other members of her German I class.

Rae Lee H. narrates a selection from her German book to the class.

"Courses Train Students for Careers"

Mrs. Hites gives a timing test to train students in precision.

Mrs. Hites looks on as Diana S., Bev B., Sandy R., and Janet B. work diligently.

TYPING: Jobs are always open to people who can "pound the the keys." The typist learns to keep papers neat and be precise. SHORTHAND: These marks are not scribbling they're just shorthand. Future secretaries take the course to prepare them for future jobs. OFFICE PRACTICE: This course gives the girls the fundamentals of the adding machine, rates on postage, and general office work. Our school paper was a project of the class. INDUSTRIAL ARTS: These boys don't need a "Do-It-Yourself" kit. They learn their skill from Mr. Agney. Their finished projects climax the year's training.

Concentration is needed when working on assignments in shorthand.

Patience and skill are shown here by Terry R., Ray B., Jerry U., and Bill W.

"Our Studies Mix Business With Pleasure"

Jean W., Karen H. and Ann B. learn how to sew a straight seam their first year.

Cooking is a specialty of the third year class.

HOME ECONOMICS: "A stitch in time saves nine," not only to future wives but in passing Home Economics. Unaware of this proverb, many students are always ripping out. If anyone doesn't know how to boil water, a course in cooking is guaranteed to teach you. AGRICULTURE: The AG boys learn cultural appreciation as well as skill in farming methods and using machinery. The FFA proved their skills in another way by sponsoring the "Roaring Twenties" dance—a highlite of the school year. Award after award has been captured and held by these boys.

A plaque of the county showing soil erosion is an interest to first year AG boys.

Machinery is a big project undertaken by second year AG boys.

"English and Speech Provide Personality Growth"

Rita O., Phyllis S. and Dick P. listen as Miss Casten reads Julius Caesar.

Don D., Steve H., Diana L., and the rest of the class read passages from Macbeth.

ENGLISH: From Shakespeare to grammar students learn of iambic pentameters and rules in usage of nouns, pronouns, gerunds, and infinitives. To increase their tastes in fine arts each student was required to read a classical book. SPEECH: Speech students are well-trained in the art of speech which taught poise, ease and self-confidence. The play at Christmas and the skits at the Mother-Daughter Banquet has given the class a chance to prove their skills. A speech contest held at Bradley gave the speech class a greater challenge and the opportunity to win honors. Melode Flatness received a fifth place in the original monologue division.

Sandy W., Barb W., Lee H., Bob W., and Rosalie C. point out authors' homes.

Play cuttings were a specialty of the speech class this year.

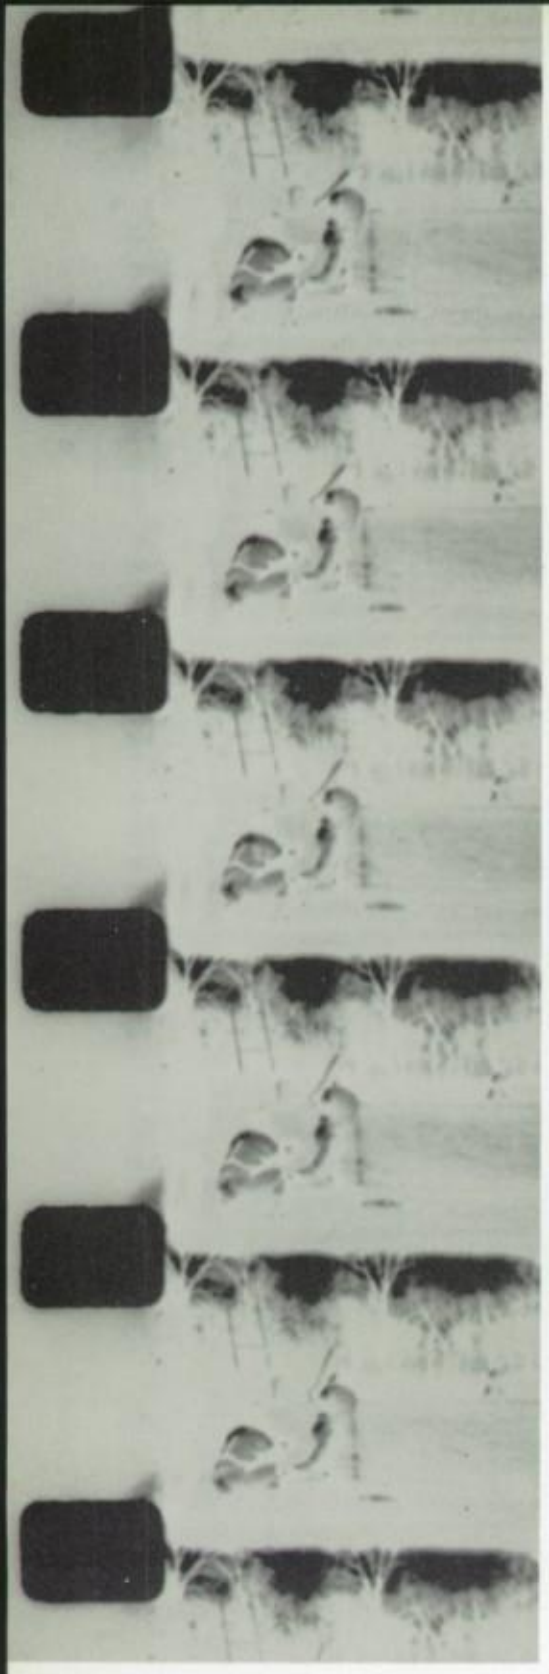
"It's a Hit"

In a little batting practice 'Chunky' starts one out toward right field.

The Dave Dorick Batting Award

Coach Miller presents the Dave Dorick Batting Award to Dave Brown for his .364 average.



The outlook wasn't brilliant for the
Mudville nine that day;
The score stood two to four, with
but an inning left to play,
So, when Cooney died at second, and
Burrows did the same,
A sickly silence fell upon the pa-
trons of the game.

A straggling few got up to go, leav-
ing there the rest,
With that hope that springs eternal
within the human breast,
For they thought, "If only Casey
could get a whack at that,"
They'd put up even money now,
with Casey at the bat.

But Flynn preceded Casey, and like-
wise so did Blake,
And the former was a puddin', and
the latter was a fake,
So on that stricken multitude the
deathlike silence sat,
For there seemed but little chance
of Casey's getting to bat.

But Flynn let drive a "single," to
the wonderment of all,
And the much-despised Blakey "tore
the cover off the ball."
And when the dust had lifted and
they saw what had occurred,
There was Blakey safe at second, and
Flynn a-huggin' third.

Then from the gladdened multitude
went up a joyous yell,
It rumbled in the mountain-tops, it
rattled in the dell;
It struck upon the hillside and re--
bounded on the flat;
For Casey, mighty Casey, was ad-
vancing to the bat.

There was ease in Casey's manner
as he stepped into his place;
There was pride in Casey's bearing,
and a smile on Casey's face.
And when, responding to the cheers,
he lightly doffed his hat,
No stranger in the crowd could doubt
'twas Casey at the bat.

Ten thousand eyes were on him as
he rubbed his hands with dirt,
Five thousand tongues applauded
when he wiped them on his shirt;
Then while the New York pitcher
ground the ball into his hip,
Defiance gleamed in Casey's eye, a
sneer curled Casey's lip.

And now the leather-covered sphere
came whirling through the air,
And Casey stood a-watching it in
haughty grandeur there.
Close by the sturdy batsman the
ball unheeded sped—
"That ain't my style," said Casey.
"Strike one!" the umpire said.

From the bleachers, black with peo-
ple, there went up a muffled roar,
Like the beating of storm waves on
a stern and distant shore.
"Kill him! Kill the umpire!"
shouted some one on the stand.
And it's likely they'd have killed
him had not Casey raised a hand.

With a smile of Christian charity
great Casey's visage shone;
He stilled the rising tumult; he bade
the game go on;
He signaled to the pitcher, once
more the spheroid flew;
But Casey still ignored it, and the
umpire said: "Strike two!"

"Fraud!" cried the maddened
thousands, and echo answered
"Fraud!"
But one scornful look from Casey
and the audience was awed.
They saw his face grow stern and
cold, they saw his muscles strain,
And they knew that Casey wouldn't
let that ball go by again.

The sneer is gone from Casey's lip,
his teeth are clenched in hate;
He pounds with cruel violence his
bat upon the plate.
And now the pitcher holds the ball,
and now he lets it go,
And now the air is shattered by the
force of Casey's blow.

Ah, somewhere in this favored land
the sun is shining bright;
The band is playing somewhere, and
somewhere hearts are light.
And somewhere men are laughing,
and somewhere children shout:
But there is no joy in Mudville—
mighty Casey has struck out.
